Contents

- This document includes information on all marked Tittensor figures known at 01/11/20.
- This information has been compiled from text books, sale catalogues and the internet over several years.
- In addition to those illustrated, one other marked figures for which I do not have an image is known; a sheep [5].
- The majority of these figures are under-glaze painted but five over-glaze enamel painted figures are known (TF012, TF018, TF021, TF030, TF032).
- The Tittensor family was making pots over at least the period 1789 to 1823. The images in this document show a range of styles, quality and manufacturing techniques. I hope that we can categorize and date these with a view to assigning them to different family members.
- I also have information on unmarked figures attributed to the Tittensor family, including those with an impressed or incised "T".
- I would very much like to hear from you if:
 - you have further information or images of any of these figures.
 - you know of any marked figures or pots not on my list.
 - you have information on unmarked figures attributed to the Tittensor family.
 - you have any thoughts as to how to categorize, date or attribute these figures.
- Please email Paul Tittensor at tittensor@one-name.org.
